

AMERICAN ASSOCIATION OF ZOO KEEPERS
LOS ANGELES CHAPTER

February 28, 2019

Dear Friends of Los Angeles Zoo Keepers,

The American Association of Zoo Keepers (AAZK) is comprised of zookeepers and their associates. It provides vital professional development opportunities and conservation resources to animal care professionals from coast to coast. Since it was established in 2009, the Los Angeles chapter of AAZK has raised nearly half a million dollars for community conservation projects in Africa and Asia that are making a tangible impact in preserving wildlife and habitat. We are proud of these fundraising efforts and invite you to be a part of our success.

The Los Angeles Zoo has been selected to host the AAZK national conference in 2020. Not only is this an honor, but it is a platform for sharing with others in our field the unique insights, knowledge, and skills that we have developed in the pursuit of our conservation mission. During the 2020 national conference, which takes place August 29–September 3, 2020, we will connect with more than 400 zoo keepers from across the country and around the world.

The conference theme is "Lights, Camera, Take Action!" Caring for animals is our passion, and we hope you will take action to support us by making a tax-deductible donation or sponsoring the 2020 conference. Enclosed, please find a list of available sponsorship opportunities. Learn more at www.losangelesaazk.org or contact us at 323/644-6004.

Sincerely,

er n

Jill Werner

Los Angeles Chapter of the American Association of Zoo Keepers
Committee Chairs for AAZK Conference 2020
